

**\*IMPORTANT: This form must be turned in to the Office before it will be considered an official notification.\***

**Vallivue School District Parent Opt-Out Form**  
**Policy No. 698 F1 (replaces Internet, Computer, and Network Service User Agreement)**

**General Network Use**

The network is provided for students to conduct research, complete assignments, and communicate with others. Each Vallivue School District 3rd– 12th grade student will be assigned a computer network login that will provide the student with access to district approved software, the Internet, and a collaboration app/Email account.

**Internet / Email Access** (working email accounts NOT provided for 3rd-5th)

Access to the Internet and email will enable students to use thousands of libraries and databases. Families should be warned that some material accessible via the Internet might contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. While our intent is to make Internet access available to further educational goals and objectives, students may find ways to access other materials as well. Filtering software is in use, but no filtering system is capable of blocking 100% of the inappropriate material available on the Internet. We believe that the benefits to students from access to the Internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. Ultimately, parents and guardians of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources. To that end, the Vallivue School District supports and respects each family's right to decide whether or not to restrict access. If you do not want your student to have Email and/ or Internet access please indicate below.

**Publishing to the Internet - Directory Information**

Student work may be considered for publication on the Internet, specifically on his/her school's web site. Photos of students may be published on school/district web sites, illustrating student projects and achievements. In addition, your daughter or son's first name last name initial may be considered for publication on his/her school's web site. If published, his/her name will appear on pages with a clear school related purpose. Permission for such publishing does not grant permission to share any other information about your son/daughter, beyond that implied by their inclusion on the web page(s). If you do not want your child's work, photo or name to be published on the web site, please indicate this on the RESTRICTION OF RELEASE OF DIRECTORY INFORMATION below.

**Parent/Guardian Opt Out:**

Check below if you **DO NOT** want your student to have access to one or more of the following:

- Email (Internet is required)
- Internet (Access to all devices-iPads, Chromebooks, PCs-will be lost)
- Restriction of Release of Directory Information

If no documentation is on file, it will be assumed that permission has been granted for access to the Release of Directory Information, Internet and email usage.

OPT-OUTS remain in effect until written documentation with parent signature is received by the Office that allows the use of Directory Information, Internet and/or email.
